INTRODUCTION

In the march of the higher civilization, westerly, through most advantageous conditions, the Pacific Coast in its development has become the Mecca for the people of every nation. Our commerce through the Golden Gate has quadrupled during the last year, and the notable gatherings of societies and select excursions to the Metropolis of California has been increasing annually for the last decade. The manifold comforts of our equable climate has attracted people of thrift and ample fortune, and we say without vanity or boastfulness that the resident population of California is a representative class of an enlightened, select and prosperous community.

In selecting the names of 25,000 families from what is known as people of social standing and the highest respectability, we have found it a growing and difficult task to keep a reliable record of the noted families who have within the last year chosen this favored land for their future home.

It is most satisfactory to feel that our efforts have been appreciated by the Society people of California during the sixteen years of our publication. The Blue Book has become one of the leading features of our State.

Each year we have added some new feature that has made the work an attractive, reliable and most useful reference among select families, merchants, visitors and professional men.

We have by diligence endeavored to make addresses of each family or individual correct to date of publishing, and in presenting this volume we do so with a conscious pride that it is the best issue ever published on the Pacific Coast, and compares favorably with any similar work in the United States or Europe. The large subscription list we have already secured attests the growing popularity of this publication, and in this connection we have the highest endorsement by the most prominent business houses by their patronage in advertisements.

We have not only enlarged our work, but made many improvements and substantial utilities. Among these are a high-grade and superior quality of paper manufactured especially for our use; the names of the club members are printed with their business addresses; several prominent clubs added, the leading ladies' clubs of San Francisco and suburban cities; the permanent guests of the leading hotels and summer resorts; official diagrams of the leading theatres; a shopping guide and business reference which shows the leading firms and professional people, classified and alphabetically arranged.

We take this opportunity to acknowledge with thanks the many suggestions and invaluable assistance given by our friends in the compilation of the Blue Book, making it an authority and reference for those who have attained the highest social standing in the community.

NOTE—Sub-Stations issue domestic money orders or registered letters, also foreign registered letters, but not foreign money orders, except at 9 and 34.

To the Business Men of San Francisco:

The prompt dispatch of mail in a matter which equally interests both you and the Post Office Department.

I ask you to deposit your mail in the letter boxes often and early to insure its being forwarded by the first outgoing mail.

If I delay their mail until late in the afternoon a portion must be left over, as some of it cannot be dispatched for the want of time.

If you will have your mail "faced up," that is, have the stamps on the right hand upper corner, and tie in a package with a string or elastic band, on arriving at the station it will immediately go to the cancelling machine and then to the distributors, having prompt dispatch, but if loose they go on the general table taking much time in facing up.

Please take an interest and instruct that your mails go into the boxes early. If a large mail and late send it to Ferry Station "faced up." It will be a benefit to you and assist the Department in prompt dispatch of mail.

W. W. MONTAGUE, Postmaster.

King's Vibratory Massage

The Most Perfect Up-to-Date Scientific Treatment of Scalp and Face

IT IS NOT ELECTRICITY

It is a rapid movement of the fingers in a most thorough massage. This movement is brought about by an eccentric driven by an electric motor. The fingers act as little soft firm hammers giving 1,800 to 2,000 strokes per minute.

Of all the processes and applications combined, which have ever been invented for face and scalp treatment, they cannot for a single moment compare with the marvelous results obtained by this thorough and common-sense method.

Headaches and Neuralgia are invariably cured. The delightful soothing sensation to the entire nervous system cures Insomnia and many nervous affections. The treatment is the most delightful, restful and invigorating of any that has ever been invented and can only be appreciated or understood after once trying.

Demonstrations Always Free. Send for complete illustrated catalogues and prices of the various styles of machines

THE water heating problem has been a hard one but the **DEASY HEATER** has solved it.

This Heater is of California design and workmanship and is superior to any water heater made, not only in economy of gas but in quietness with which temperature of water can be raised.

The cut in this page fully illustrates its construction and method of operation.

Thirty gallons of water can be heated to a temperature of 180° F. in thirty minutes with a consumption of thirty cubic feet of gas.

Within thirty seconds after lighting, hot water is available, making it especially an instantaneous heater. Ten cubic feet of gas will furnish hot water enough for a bath.

The heater is simple—pointing to gas will order. It solves the hot water problem in the gas kitchen.

One of the first requisits of GOOD SOCIETY is
 WELL LAUNDERED LINEN

A HAPPY COUPLE is the couple—or whole family—who always find their linen done up just as they want it, and sent home just when they want it. No more stylish and satisfactory work is done anywhere than ours. It is economical, too, in many ways.

HEALD'S SCHOOL OF MINES AND ENGINEERING

PROVIDED WITH ALL NECESSARY INSTRUMENTS, LABORATORIES AND APPLIANCES.

DAY AND NIGHT SESSIONS.

CIVIL AND MINING ENGINEERING

Thorough instruction in mining and surveying much shorter than the university course of four years. The plan adopted therefore is to *specialize*, so that those who wish can take up one subject only or as many as may be deemed advisable. Six months devoted exclusively to mining engineering will give the average student a full *practical* knowledge of the subject.

Any course or group of studies may be selected.

The CIVIL ENGINEERING COURSE includes:—Algebra, Geometry, Trigonometry, Draughting, Strength of Materials, Surveying, etc.

The MINING ENGINEERING COURSE includes:—Assaying, Blowpipe Analysis, Mill Construction, Milling, Mining, Geology, Mineralogy, Economic Geology, Surveying.

The METALLURGICAL COURSE includes:—Chemistry, Assaying, Metallurgy, Calorifics.

ELECTRICAL ENGINEERING DEPARTMENT

The study and work in this department cover all the modern applications of electricity. The course is so condensed and divested of superfluities as to bring it within the time limit and means of the average young man who has to make his own way in the world. Each student has to manufacture in the workshop a large proportion of the apparatus. The department is thoroughly equipped with Dynamos, Motors, Measuring Instruments, Wiring Appliances, Wheatstone Bridges, Telegraphic Instruments and Appliances, Electro-Medical Apparatus, Galvanic and Storage Batteries of all kinds, Fluoroscopes, X-Ray closet and a large Laboratory.

 CLUB HOUSE NORTHWEST CORNER POST AND STOCKTON STREETS
 TELEPHONE PRIVATE EX. 72.

The Pacific-Union Club is a consolidation of the Pacific and Union Clubs—two social organizations that existed in San Francisco; the Pacific since the year 1852, and the Union since 1854. These two clubs were consolidated in February, 1889, under the name of the Pacific-Union Club. It is one of the noted and exclusive clubs of San Francisco; elegant in its appointments, luxurious in its accommodations; and is provided with an excellent library, as well as all current literature of unexceptionable features.

The pleasant method and beneficial effects of the well known remedy, SYRUP OF FIGS, manufactured by the CALIFORNIA FIG SYRUP CO., illustrate the value of obtaining the liquid laxative principles of plants known to be medically laxative and presenting them in the form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxative, cleansing the system effectually, dispelling colds, headaches and fevers gently yet promptly and enabling one to overcome habitual constipation permanently. Its perfect freedom from every objectionable quality and substance, and its acting on the kidneys, liver and bowels, without weakening or irritating them, make it the ideal laxative.

In the process of manufacturing figs are used, as they are pleasant to the taste, but the medical qualities of the remedy are obtained from senna and other aromatic plants, by a method known to the CALIFORNIA FIG SYRUP CO. only. In order to get its beneficial effects and avoid imitations, please remember the full name of the Company printed on the front of every package.

THE SAN FRANCISCO ART ASSOCIATION.

SAN FRANCISCO, CAL.

MARK HOPKINS INSTITUTE OF ART, CALIFORNIA AND MASON STREETS.

The San Francisco Art Association was organized March 25th, 1871. It has for its objects "the promotion of painting, sculpture and fine arts akin thereto; the diffusion of a cultivated taste for art in the community at large, and the establishment of an Academy or School of Design." On July 30th, 1889, the Association was incorporated, while in February, 1893, it became affiliated with the University of California. On this occasion Mr. Edward F. Searles deeded to the Regents of the University of California for the use of the Association, the magnificent property now known as the Mark Hopkins Institute of Art. Mr. Searles has recently added to his gift a picture gallery of imposing proportions, making this institution with its extensive collection of admirable paintings and statuary one of the most notable art centers of the West. The membership, which is unlimited, numbers about 600. The School of Design is managed by a committee of the Association. The painting, sculpture, drawing and other class rooms occupy a separate building in the picturesque grounds of the institute. The attendance averages 150 pupils.

Ladies' Own Material Made Up. First Class Fit and Work-
 manship Guaranteed

I feel backed up in my hope to realize my ambition of surrounding myself with first-class patrons by catering to their wants. My experience with the leading artists in the European Centres of Fashion, the most factitious and exacting cannot fail to recognize. One of my cardinal points—and one which I shall never deviate from—will be to render the utmost satisfaction in value, style, fit and finish before my patrons leave my premises. In fact my garments will have an expression.

RECEPTION DAY MONDAY

Among the leading, most select and fashionable family hotels of San Francisco, we may mention the "WELLESLEY" at 1433 California Street, corner of Larkin Street. The house is of modern construction, having been built at a very recent period and contains a large number of apartments, single and *en suite*. These are equipped with every convenience ingenuity could devise to insure the comfort, pleasure and convenience of guests. The house is magnificently furnished throughout and easily takes first rank with anyone of its class in the United States. It is located in what is regarded as the most fashionable quarter of the metropolis on an elevation sufficiently high to insure perfect drainage and an atmosphere free from smoke and obnoxious odors of every kind situated as it is in what may be termed in one sense, the heart of the metropolis, almost every point of interest in the city is within easy reaching distance of the hostelry. Two lines of street railways pass in immediate proximity to the house, one in front of its very doors and the other one a block away only. These lines run East and West, North and South and cover miles of territory. All theatres and other places of amusement, the park, ferries, railroad stations, etc., are readily accessible, and it is difficult to imagine a more favorable situation in San Francisco to establish a first class hotel. The *cuisine* is unexceptionable, the table always being furnished with all the luxuries of the season. The Wellesley is under the management of Mr. and Mrs. Buislay than whom no persons are better fitted by instinct and experience to conduct a refined and exclusive establishment. They aim to make their house a veritable home for every guest whom they entertain.

The Value of Advertising Depends Upon Two Things

T W O Points

The Class of People who read
the Announcement

AND

The Circulation of the medium
through which it is made

The Examiner

SUBMITS FOR YOUR CONSIDERATION

T W O Facts

FIRST—That it reaches the great buying-class of San Francisco and the Coast—the live enterprising people who read advertisements and take advantage of the offers made by advertisers.

SECOND—That its circulation exceeds that of any other San Francisco daily paper by at least 12,000 to 15,000 copies per day.

These are simple propositions, both capable of demonstration, and together worth your most careful consideration. Though THE EXAMINER'S advertising rates appear to be high, the fact that the paper reaches the people, and more of them than any other medium, and that the class of people reached is the buying class, renders it the medium par excellence for the retail dealers of San Francisco.

Without seeing the DIAMOND PALACE would be like visiting Europe without seeing Paris. It is a leading feature of San Francisco. It is a marvel of beauty and elegance. To be appreciated it must be seen. Every visitor and resident should go and examine the marvels of genius at
